Subject: Pick up of recyclables

Mayor Hochvert,

We have been Scarsdale residents for 38 years. Over time, we have lived in Greenacres and Fox Meadow. In both areas, we were pleased with the helpful services which we received from village sanitation employees. We have had pick up by the side of the house in both residences. Recent articles in the Scarsdale Inquirer have suggested a possible change in practice.

At this time, it would be very disappointing to see this service reduced. While we enjoy good health, it would/ could be a hardship and discriminating to require residents to bring recyclables to the curb. In addition, to the degree that individuals vary with respect to the care with which they place paper recyclables etc curbside, this change could prove a significant blight on our lovely town. Not to mention the possibility of attracting rodents and other wild animals to what could be potentially messy recyclables strewn over the road.

We hope to attend Monday's public meeting on this matter, but we thought it worthwhile to bring our concerns to your attention.

Thank you for your time.

Vivian and Donald Sonnenborn
