Dear staff,

I am writing to ask you to settle the litigation related to article 78. It is not wise to waste tax payer's money to get into a litigation process. There has been numerous mistakes made during the revaluation process, let's not make the situation worse by dragging on the litigation and wasting more of our Scarsdaliens' money. It has been taking on toll on all our lives financially and mentally. Please move on and try to make Scarsdale a better place to live

In addition, please also release Mayra Rodriguez Valladares' emails (over 2400 of them) that the Village Attorney has been withholding.

Thanks!
