

Thank you Donna, I appreciate your dedication as well as informing me that the letter will become part of the listed Village communications.

I am going to send you shortly a message which I'd like you to forward immediately to our mayor, BOT and to the Village manager and Highway dept head.

It concerns the lack of regards by most Scarsdale pedestrians, joggers and cyclists for others when they are outdoors in public areas without a mask or face cover.

Just got off the Hutch and saw the electronic sign on the PKY stating, "Save lives Cover your face." Totally Approve!!!

These recommendations made by the CDC and by our Governor. Countless Scarsdalians with their children, walk on our sidewalks (only 3 feet wide) and streets without a mask. And when we politely remind them to cover their faces, many use rude replies or ignore us. No solidarity, very disappointing when we need to do the best for the others as well as for ourselves during this crisis.

There are more than 300 positive Covid 19 cases in Scarsdale alone and many, many deaths... We need a repeated initiative in all our neighborhoods with the usage of electronic boards stating the above request. Our mayor, BOT, officials and responsible citizens need to take a more proactive stance. We count on you to spread the word. You have closed the parks and playgrounds, very good! Now have everyone cover their faces!

We would appreciate a reply from the above officials when they receive this email as to when they will be taking action regarding the COVER YOUR FACE initiative.

Thank you. We cannot procrastinate to prevent this most contagious virus to spread. It used to be 6 foot safe-distance, now they say 10 foot safe distance.

All the best,

Jeannie and Bernard Mackler

PS: Donna please send this email, as is, to all the Scarsdale officials I listed. Thank you as always.
