Subject: Re: Blowers and lighting

Hi David,

Thank you for your email.

I will forward your email to the Village Board in advance of Tuesday's public hearing on leaf blowers.

I will also forward your email to the Village Manager so he is aware of the condition of the sidewalk and path.

Best regards,

Marc

CAUTION: External sender.

Hello,
Yesterday, I was walking down Rt. 22 going South and I had to turn down Grand Blvd due to the extreme noise and fumes coming from the FOUR blowers that were working on the IHM parking lot. This is not an unusual case in Westchester due to the yearly unnecessary spring cleanup. I could sort of understand in the fall but this is unnecessary since they do this with private homes as well in the spring when leaves actually break down and help bushes and the lawn when mowed over.

While I have your attention, it would be great if the sidewalk that runs from Hyatt Field up the hill to Ewart Street could be fixed as was done right near the park. It is uneven and dangerous, only made worse at

night when there is NO lighting on that side of the street. I often walk my dog here and during the winter when it is dark early, it is very apparent. A lot of business people walk home on this sidewalk as well. Also, the path between the Dunwoodie St. dead end and Grand Blvd could use leveling from rocks sticking out. Years ago, some work was done here and rocks were turned over and never flattened out.
Thank you,
David
